CIRCULAR 6

12 April 2022

NUS Staff and Students

COVID-19: UPDATE ON CHANGES TO UNIVUS

1. Arising from the easing of Safe Management Measures (SMMs), and Fast and Easy Testing (FET) requirements by NUS, the following changes have been made to uNivUS.

2. Exiting Health Protocols 1 and 2

- a. uNivUS will set the default end-date of Protocol 1 (P1) and Protocol 2 (P2) in the Health Declaration function based on your vaccination status. If you are fully vaccinated, the default end-date is 7 days, otherwise, the default end-date is 14 days.
- b. You will be discharged from P1 and P2 when either one of these conditions is met (whichever is earlier):
 - i. By uploading a negative ART result any time after 72 hours from your P1 or P2 start date. You cannot discharge yourself earlier than 72 hours.
 - ii. At 12 noon, on your P1 or P2 end-date.
- c. You can extend your P1 or P2 period beyond the default end-date by changing the date through the Health Declaration function in uNivUS. However, this must be done before the system exits you automatically as per para 2(b)(ii) above.
- d. If you exit P1 or P2 from 13 April onwards, you will continue to receive a Green Pass, regardless of your FET upload status or your FET result, for 28 days¹ from the day you exit P1 or P2. This is to prevent a situation where an individual, who has recovered, inadvertently uploads a false positive result and triggers a Red Pass.
- e. During this 28-day period, the Health Declaration function in uNivUS will be deactivated as the probability of a re-infection is extremely small, and there is no need for such individuals to make Health Declarations.

3. Exiting Health Protocol 3

- a. If you are on Protocol 3 (P3), you would need a negative FET result to exit P3 permanently. The negative FET must be uploaded to uNivUS on or after Day 5.

If you have further questions, please check with the management office of your faculty, school or department, or email COVID-19@nus.edu.sg.

¹ For example, if you exit P1 or P2 on 13 April, the 28-day period will start on 13 April and end on 10 May (both dates inclusive).

Dr Peck Thian Guan
Senior Director
Office of Risk Management and Compliance
